ABOUT US

About Us

We're the best at what we do, we're always present and deliver more than you expect. What's more is that we do this in a variety of ways, but we have one goal (OUR CUSTOMER'S SATISFACTION).

Who are we?

- Since 1999 DSIT assured that quality, cost, efficiency and massive range of experience in communications, home automation, Audio/Video & Telecommunications are the key factors upon which DSIT has grown, success & expand throughout the Kingdom of Saudi Arabia.
- A Few Simple Ideas That Started In 1999, when DSIT entered the scene, we started with a few simple ideas:
 - 1- Offer high-quality IT solutions and services.
 - 2- Treat our clients and employees with a high degree of professionalism.
 - 3- Create an open and honest environment in which any idea, no matter how strange, is considered.
- DSIT is a leading establishment in providing communication and software services to our customers. We are proud to have the KSA's top class in this field. Naturally, we are a networks leader in the communication, Home Automation & Audio/Video services through Systimax, Legrand, Panduit, 3M, Aruba, Intel, Crestron, HP, Dell, Microsoft, and many others partners.

- But who are we really? We're a group of engineers, technicians and business men and women who think and act as an extension to our customer's demands. A team of people that aren't afraid to get creative when it comes to finding a flexible business model or roll up our sleeves when it comes to support & serve our customers.
- We built our reputation on providing superior cables systems, communications equipment, servers, computer terminals. We also support our reputation with professional analysis and project management. If you haven't already had an opportunity to work with DSIT, we encourage you to ask someone who has.

This is What We Do. This is What We Love.

- We help our customer to connect, communicate and collaborate better. We do this by delivering solutions and services with amazing talent and a select group of manufacturers that save you money .

Vision

It is the DSIT vision to be KSA's leading communications & IT provider, establishing a reputation for innovative communication solutions that alter people's perceptions.

Mission

Our mission is to continue to create inventive, relevant and stirring solutions. We intend to further entrench ourselves as an industry-leading in communications that is able to inspire and sustain corporate reputation and trust.

Values

Our behaviours define our success:

Integrity is at the heart of our relationships. We demonstrate integrity by trusting, respecting and empowering our employees, and operating every single day with authenticity, openness and reliability. We are each accountable for doing the right thing. The company pledges to protect environmental quality and human welfare in our communities. We are actively involved as a company, and as individual employees, giving time and resources to contribute to the sustainability of the places in which we operate.

Everyone knows “you cannot manage what you don't measure”, so here's a look at how our approach helps you better measurements across all phases of the technology lifestyle and expand the capabilities of your idea. Whatever the status of our customer demands, we can help you align your business and IT objectives.

Our Process: Plan. Build. Operate.

Plan: We baseline our customers current technology environment(s) and then identify risks, opportunities and solutions to optimize their demands. This includes physical and virtual servers, Home Automation, Audio/Video, CCTV, IP Phones, SMATV, WiFi System and Software, plus desktop consolidation and storage architecture.

Build: We deliver and build high-performance routing, switching, security and virtualization technologies: that enable secure delivery of information, plus position customer's network for the future.

Operate: With our support and professional services, we keep our customer's network and infrastructure "up" and accelerate the performance.

We Work With Some of the Best Companies in IT Field

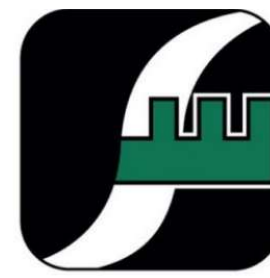

Which we consider strategic partners. And that's great for you!

All that really means is that we've identified such companies as having the best products and solutions-built and tested elsewhere-that the market has to offer.

(By the way, a solution is a set of products that work together to solve a unique business and IT challenge. They're really not possible without a solid network, which we make happen.)

We resell our partners' products and solutions, learn from them in the process and, most importantly add our own engineering flare into the mix, making your solutions that much better. It's a formula for success that will save you time and money.

Products & Services

1

CCTV System (IP & Analog)

CCTV (Indoor Dome)

Dome, Pullet, Box and PTZ indoor camera with verity options: IR, motion detection, resolution from 1.3 MP to 13MP....etc.

CCTV(Outdoor Pullet)

Dome, Pullet, Box and PTZ Outdoor camera with verity options: IR, motion detection, resolution from 1.3 MP to 13MP....etc.

CCTV (In/Outdoor PTZ)

Full control by your controller device (Joystick), software and/or your mobile.

NVR/DVR

Capability to contain 3-5 HDD, LCD/LED screen, all the system are ready to controlled remotely from your mobile.

CCTV (Indoor Dome)

Control device, give you ability to control PTZ (indoor/Outdoor) X,Y and Z direction.

2

Phone System (IP, Digital & Analog)

Controller

The latest voice and data technology, able to combine high-end voice and data.

Phones

Phone system enables your entire team to connect and collaborate in real-time, without limitations.

Cards and slots

These cards give you ports for Digital, Analogue ext. VCM channels and BRI trunk.

License

These licenses are used to enable channels on SIP trunks.

Conference Phone

Collaborate Better With Productivity
Features and Superior Sound.

3

WiFi Solution (Indoor /Outdoor)

Access Point (Outdoor)

Bringing gigabit speeds (802.11ac) with external antennas or with integrated antennas.

Access Point (Indoor)

Deliver superb Wi-Fi performance – they can be deployed as controller-managed or controllerless.

Mobility Controllers

Controllers offer centralized network engineering, IP services, security and policy controls, and app-aware platforms.

Antenna

2.4 / 5 GHz WiFi Directional Panel Antenna
| Outdoor.

Conference Phone

Power injector for PoE devices. It can output 30W close and 25.5W at up to 328' away.

4

SMATV (HDMI / Analog)

Antenna

Aluminium dish reflector, with diecast Zamak LNB holder. Folding arm for fast and easy mounting.

MultiSwitch

For Input 4 to 16 satellites, outputs has been designed as cascadable multiswitch family with external power supplies.

Amplifier

With very high input signal level: SAT - 115 dB μ V and TER - 117 dB μ V. Therefore, it can be installed directly with the converters.

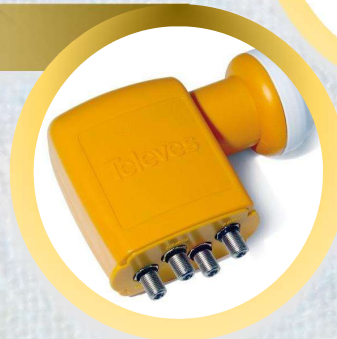

Encoders

Generates a Digital TV channel (multiplex) from A/V sources like cameras, PCs, or TVSAT receivers.

LNB

Best LNB, Waterproof , Universal KU Band LNBF, Converter LNB Universal, Worldwide Compatible

5

Home Automation

Somfy RTS Interface

This motor controller which allows managing all your Somfy RTS applications with the Crestron control system.

Wall Docking Station

Provides a truly elegant wall mount solution for charging your Apple® iPad.

DIN-2MC2

Dual-channel bidirectional motor control
Supports 120 to 240 Volt 50/60 Hz,
Override input

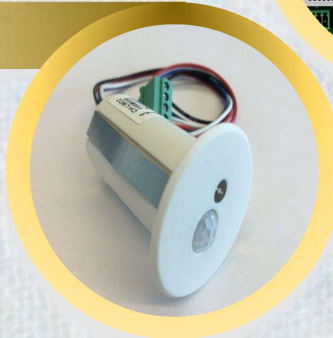

DIN-1DIM4U

4 channels of 0-10 Volt dimming control
Supports 120 and 220 to 240 Volt. Allows
switching of lighting and exhaust fans^[1]

CH-LMD2

Ceiling-mount occupancy sensor designed for small areas to detect when the room is occupied, for use in conference rooms, hallways, and private offices.

6

Audio/Video

Ultra Short Throw projection

Projector is an ideal choice for teaching and training applications, with Ultra Short Throw projection.

Network A/V Controller

Revealing the Soul of High-Resolution Entertainment (HDMI 2.0)

Speakers

Full-range loudspeaker with a single 2.25" (57 mm) driver in a ported enclosure to deliver a 140° conical coverage pattern.

DIN-1DIM4U

Our Video conference system brings a complete collaboration solution to your meeting room.

A/V Cables

With our best quality cables you are looking to connect a computer to a TV or monitor, your choices are HDMI, DisplayPort, DVI, and VGA.

7

Passive & Active Network Systems

Switches

Manageable , Fast Ethernet switches that provide enterprise-class all Layers

Firewall

Delivers Industry's Best Threat Protection and Performance with Reduced Complexity

Servers

High performance servers for multi purpose use.

Cables

High quality Fibre & Cooper (Cat5e, Cat6, Cat6a & Cat7) cables for solid network.

Enclosure cabinet

All sizes from 6U till 48 U, with depth 600, 800 & 1000cm.

History of our projects

Al Marai – Distribution centre (Mobility Inventory System)

Project Period

Nov. 2014 - Dec 2014

Project components

- 1 * HP Servers.
- 1 * Storage Server
- 3 * Fiber optics Patch Panel.
- 2 * UTP Cat6a Patch Panel
- 1 * 42U Data cabinet.

Staff

- 1 * Engineers.
- 1 * Supervisor.
- 4 * works.

Project Period

June 2015 - July 2015

Project components

- 1 * Video Conference System.
- 2 * Short Throw projector.
- 1 * wifi Solution.
- 1 * Support Internet provider.
- All network components

Staff

- 2 * Engineers.
- 1 * Supervisor.
- 7 * works.

Private Palace – Full coverage Aruba WiFi Soltuion

Project Period

Mar. 2014 – Feb. 2015

Project components

- 1 * Aruba controller.
- 1 * Fortinet Firewall.
- 63 * outdoor WiFi Access Point.
- 28 * Fiber Patch Panel.
- 2 * UTP Patch Panel.

Staff

- 3 * Engineers.
- 2 * Supervisor.
- 16 * works.

Subcontract, TASKCO for SCECO Project, Data, CCTV & WiFi

Project Period

May 2016 - July 2017

Project components

- 2 * HP Servers.
- 1 * Storage Server
- 28 * Fiber optics Patch Panel.
- 102 * UTP Cat6a Patch Panel
- 8 * 42U Data cabinet.

Staff

- 2 * Engineers.
- 3 * Supervisor.
- 12 * works.
